The old west No place for thirsty customers.

Thirsty Jocks keep our hero in shape.

Pour more while the punk rockers pogo

Space The last frontier for beer

Bonus rack brings the moment of truth

WE'RE SERVING ANOTHER ROUND OF STREET LOCATION FUN!

The fun's on tap for your customers when they play Tapper. From its brass bar-rail and mug holders to its mini beer taps to its "stained glass" header, Tapper is like no game ever designed for the street location.

But the real magic in Tapper is the game play. You're the bartender as you pour and slide mugs of draft beer to a thirsty crew of customers in four different scenes. It's a mad rush as they slide empties for you to catch and pound on the bar for another round. Get that tip on the bar and the dance hall girls come out for their number. Than its back to the tap until they've had their fill. But there's more! A bonus rack featuring the beer bandit will shake you up when he shakas five cans of your six-pack. Pick the unshaken can for a bonus. Pick the wrong one and you're in for a foamy surprise.

Tapper uses the phenomenal MCR III Computer Logic System by Bally Midway, providing exceptional levels of animation, diagnostics and bookkeeping functions required by the professional coin-machine operator. Backed by our industry-renowned service, parts and distributing network, Tapper promises to be *the* street location game of 1984.

TAP INTO PROFITS WITH TAPPER.
